

- Week 8**
Complete Concept Sheet Plan (details about images max-sizes and list widths in % — very important)

- Week 9**
Complete Home Page and another page (structured correctly, but not all text and images need to be added yet)

- Week 10**
Build all pages (again structured correctly, saved under correct name & title). Then start sizes images and exporting for web.

- Week 11**
Place all text and images in web. This could be done via CSS or HTML, or through a combination of both.
Refer to your plan to see what is best.

- Week 12**
Confirm all media screen breaks are working correctly. Review Home Page and one other page and carefully look at text tagging.
Add more tags & CSS rules as needed.

- Week 13**
Finish other pages. Confirm media screens work in all pages and on various devices.

- Week 14**
Update any interactivity elements based on your plan (optional)

- Week 15**
Project due
